

Create A Mobile

FROM DRIFTWOOD AND SHELLS

Showcase items from te moana by making your own driftwood mobile.

YOU WILL NEED

- 2 straight pieces of driftwood (arms length or smaller)
- String and scissors
- Shells with holes in them
- Optional: feathers, beads, small pieces of driftwood and seaweed

WHAT TO DO

1. Tie your driftwood together to form a large 'X'.
2. Clean your shells and decorations with water and a cloth.
3. Divide your items into four equal groups, then arrange each group into a straight line on the table.
4. Tie each line/group onto a new strand of string, so you have four in total.
5. Fasten these strands onto the four ends of your driftwood X.
6. Then add a hanging string to the centre section, and find somewhere cool to hang it!
