

Tū Kōhatu

HAVE FUN WITH THIS TRADITIONAL GAME

Stack kōhatu (rocks or stones) as high as you can without them falling over

YOU WILL NEED

- 5-7 kōhatu that are big enough to stack on top of one another.
- A friend or whānau-member to play with (or you can play by yourself).

HAVE SOME FUN!

See how many kōhatu you can stack without the tower falling over.

Make a tower that leans...

If playing with someone else, time each other or race to build the highest stack.

Take turns adding a kōhatu, until someone makes the tower topple! The other person is the winner!
